LAB 2 – HTML

At the end of this lab, students should be able to:

- Organize data or content neatly using tables in a web page.
- Modify the table's appearance using rowspan and colspan.
- Modify a table's size.
- Embed videos from YouTube into the web page.

Question 1

Write the HTML codes to create the table shown below.

- The web page title is "*Lab 2*".
- The table width is 600px.
- You may do minor adjustments if necessary.

My Schedule

Heading level 2

My Time Table				
8.00 a.m. to 4.00 p.m	Monday	Consultation	Lunch Break	Research
	Tuesday	Lab		Lecture
	Wednesday	Research		Consultation
	Thursday			Field Work
	Friday	Lecture		
	Off days on Saturday and Sunday			

Question 2

Write the HTML codes to create the web page shown below.

- The web page title is "*Lab 2*".
- The table width is 400px.

Upgrade plans for existing customers ← A title for the table.

Personal	**Corporate** ← Heading level 3.
6 months FREE*	
35% Discount	20% Discount
Number of Licenses	**Number of Licenses**

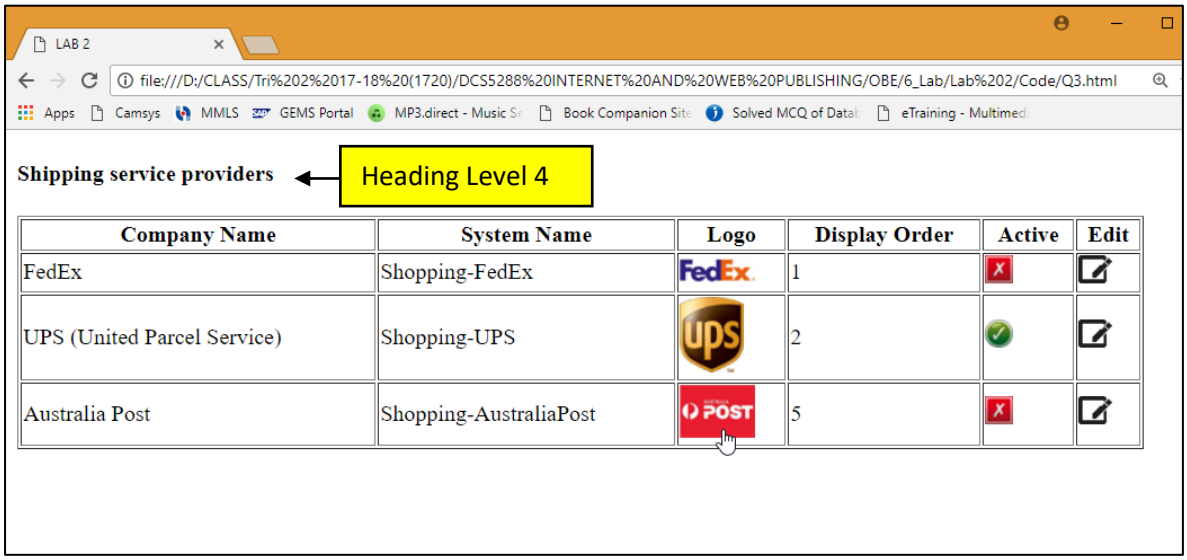
1	1	2-5	6-15	16+
	-	+10%	+15%	+20%

Each column is 50px in width.

Question 3

Write the HTML codes to create the web page shown below.

- The web page title is "*Lab 2*".
- The table width is 800px. Adjust the width if necessary.
- The logo images are hyperlinks to these websites. Open the links in a new tab or browser window.
    - FedEx – https://www.fedex.com/en-us/home.html
    - UPS – https://www.ups.com/us/en/Home.page
    - POST – https://auspost.com.au/



Question 4
